## THREE NATURALIZED.

So Says Governor Foster of Lynched Men at Tallulah.

## REVERSE OF REPORT

Sent to the State Department by the Italian Consular Office at the Crescent City—Sheriff After the Perpetrators.

Washington, July 27.—The state department received from Governor Foster of Louisiana a preliminary report upon the killing of the five Italians. The point of interest and importance is the governor's statement at Tallulah, that he has been officially advised that three of the men were naturalized American citizens.

This statement is directly diverse to advices that came to the state department through the Italian consular office at New Orleans, which sent into the country to secure information on this point. Governor Foster records in his report an earnest disposition on the part of sheriff of Madison county, where the lynching occurred, to bring the perpetrators of the killing to justice and lay all facts before the grand jury of the county.

## WILL PAY INDEMNITY.

Foreigners Not American Citizens Until They Receive Naturalization Papers.

Washington, July 27.—Italy will be paid an indemnity for the lynching of three of the five Italians at Tallulah, La., and the state department will lay down the principle once for all that an alien does not become a full fledged citizen of the United States until naturalization papers have been formally issued to him.

Of course, the state department will pursue the regular legal course for ascertaining all the facts in connection with the lynching, and there will doubtless be considerable diplomatic correspondence between the two countries before the incident is closed. The state department officials appreciate that there is no escape from the payment of the indemnity. No direct demand has yet been made by Italy, but there has been broad hints dropped in that direction.

The department's rulings on the point of citizenship have not always been uniform. Secretary Olney in his negotiations with Ambassador Fava, in regard to the Hahnville lynching case, originally took the ground that when an alien had applied for citizenship he was to all intents and purposes an American citizen and that he had no claim for protection from his native country. He did not in writing change this, but the fact that he recommended the payment of indemnity, although done as a friendly act, is considered a pretty good indication that his views had changed.

Appreciating that an adherence to the ruling originally made by Secretary Olney might come back to plague the United States, the authorities have determined to hold that an alien does not become a citizen of the United States until naturalization papers have been formally issued to him. It is pointed out that if aliens who have declared their intention of becoming American citizens should return to any foreign country the United States could not properly refuse them a passport and protection in case they got into any trouble.

## No Change in the Strike.

Cleveland, July 27.—There is little change in the streetcar strike situation this morning. As a result of the vigilance of the police and soldiers patrolling the streets Wednesday night few obstructions were found on the tracks. Much satisfaction is expressed on all sides over the calling of a special meeting of the city council to bring about, if possible, a settlement of the strike. President Hillman of the latter body in all probability will appoint the same committee which succeeded in ending the streetcar strike of last month. At a meeting of motormen and conductors of the Little Consolidated company it was voted to form a union for the purpose of giving moral and financial aid to the striking employees of the Big Consolidated lines. The leaders of the movement emphasize the statement that there will be no strike on their lines.

## Calamba Captured.

Manila, July 27.—Brigadier General R. H. Hall, with 1000 men, captured Calamba, on Laguna de Bay. The loss of the United States force was four killed and 12 wounded.

Calamba is on Laguna de Bay, about 30 miles southeast of Manila. It is farther south than the United States troops has yet penetrated on land in the province of LaGuna. It has a population of 11,476 and is 27 miles from Santa Cruz, on the eastern shore of the bay. Its capture is not considered of any strategic importance, except as part of a plan to harass and worry the insurgents.

## Australians Favor Federation.

Melbourne, July 27.—Voting on the question of federation is proceeding in Victoria. The returns received show 64,000 votes have been cast in favor of federation and 11,000 votes against the proposition.

## Kentucky Populists.

Frankfort, Ky., July 27.—The Populist state convention convened here and will put out a full state ticket. There was a small attendance.

## STILL IN ERUPTION.

Mauna Loa Volcano Continues to Send North Lava Streams.

Washington, July 27.—The Hawaiian islands have been most violently shaken by an earthquake and Mauna Loa, on Hawaii, continues in eruption. The damage done by the earthquake amounted probably to \$50,000.

The news was brought by the steamer Port Albert, nine days from Honolulu. Many excursion steamers are daily leaving Honolulu loaded with people who are anxious to see the volcanic display.

There are two streams of lava, one on the Kau side, and if this continues to flow the government road between Panalua and the volcano hotel will be obliterated. The lava is flowing in much the same course as did the flow of 1881. The other stream is making toward Hiloi.

What course the lava will take when it reaches the plateau between the two mountains cannot be determined. A slight elevation in the way of it may divide its course to Kau or Hilo, though old timers on the island believe it will follow the course of the flow of 1851. The flow is from an elevation of between 12,000 and 14,000 feet. The eruption of 1852 lasted five months; those of 1857, 1859 and 1880 four months and that of 1881 about eight months.

Kilauea has also been exhibiting signs of an outbreak, although authorities declare that there is no connection between the two volcanoes.

The sea had been acting strangely around Honolulu for several days before the eruption and the earthquakes occurred, although there was no rough weather. It was a choppy sea and mariners say that it was caused by volcanic influences. Natives fishing at the Kaalualu report that there have been several waves along the coast during the last month, some of which were large enough to upset their canoes.

On the evening of July 13 an explosion shook the earth for a distance of 25 miles around the mountain and a number of houses were demolished.

The earthquake shock was only slightly felt in Honolulu, and comparatively little damage was done in the city.

People residing within a radius of 50 miles of the volcano are fleeing to safer parts, and the country around is practically deserted.

## LUETGERT DEAD.

The Famous Chicago Sausage Maker Dies in the Joliet Prison.

Joliet, Ill., July 27.—Adolph Luetgert, the wealthy Chicago sausage-maker, who was serving a life sentence in the penitentiary for the murder of his wife, was found dead in his cell here. The authorities are unable to ascertain the cause of his death, and an inquest

ADOLPH L. LUETGERT.

will be held to determine whether he killed himself or died of heart disease. The trial of Luetgert at Chicago attracted wide attention and was one of the most sensational in the history of the state. Luetgert was charged with having murdered his wife in the basement of his factory, and cooked the body to pieces in a vat.

## WANT A CANAL BUILT.

Nicaragua Charges Its Minister to Aid the United States.

New Orleans, July 27.—Senor Luis F. Correa, minister of Nicaragua, reached New Orleans on the steamship Alabama and took rooms at the St. Charles hotel, where he will remain for a day or so before leaving for Washington. In coming to the United States, Senor Correa is charged particularly with facilitating the building of the Nicaraguan canal.

"Nicaragua wishes the canal completed," he said, "and knowing the United States wants the canal, too, the government of Nicaragua and the Nicaraguan nation hopes the project will soon be an

### A Boy's Essay on Hornets.

A hornet is the smartest bug that flies anywhere. He comes when he pleases and goes when he gets ready. One way a hornet shows his smartness is by attending to his own business, and making everybody who interferes with him wish they had done the same thing.

When a hornet stings a fellow he knows it, and never stops talking about it as long as his friends will listen to him. One day a hornet stung my pa, (my pa is a preacher) on the nose, and he did not do any pastoral visiting for a month without talking about that hornet.

Another way a hornet shows his smartness is by not procrastinating. If he has any business with you he will attend to it at once, and then leaves you to think it over to yourself.

I don't know anything more about hornets, only that Josh Billings says: "A hornet is on inflammable (Josh was a poor speller) buzzer, sudden in his impressions, and hasty in his conclusions or end."—The Boy's Friend.

### Virtues of Salt-Water Baths.

For a hand bath (a bath given to the body by use of the hands only, or by sponge or cloth) place a handful of salt in a basin as ordinarily filled for washing. Allow the salt to dissolve, or hasten the action by stirring it with the hand. The water should be as cold as you have vitality to withstand. Use no soap. Bathe the entire body. Do not neglect the face and neck in the free use of the salt water. The bath has an exhilarating influence, tones the entire system, and gives to the skin a healthful condition that amply repays for the time and trouble involved. If used in the winter it will be an excellent preventive of colds, besides being a substitute for face cosmetics. No chapping, no roughness of the skin and no clogging of the pores will trouble the person who systematically and regularly takes a bath of this sort. Ordinary table salt or rock salt will do, but will not do as well. The sea-salt contains medicinal properties not found in the others. Whether one exercise or not, the body should receive a daily hand bath of cold or cool water, especially in the summer, either upon rising or before retiring.—Edward B. Warman in the August Ladies' Home Journal.

#### HEUREAUX ASSASSINATED.

San Domingo's President Killed at Moca by Ramon Caceros.

Fort de France, Island of Martinique, July 27.—General Ulysses Heureaux, president of the Dominican republic, was assassinated at Moca, Santo Domingo, yesterday afternoon.

Name of the murderer is Ramon Caceros. He succeeded in making his escape, but an energetic pursuit was at once begun and it is probable that he will soon be captured.

Vice President Wenceslao Figueroa, immediately upon the announcement of president's death, assumed the direction of affairs.

Remains of President Heureaux will probably be taken to Santo Domingo for the funeral services.

#### FURTHER PARTICULARS.

President Heureaux Was Shot Down as He Was Preparing to Leave.

Cape Haytien, Haiti, July 27.—The details of the murder of President Heureaux of San Domingo received here are to the effect that he was assassinated as he was about to leave on horseback for Santiago de las Callaberos. The assassin, Ramon Caceros, surrounded by several accomplices, approached the president as he was talking to some friends and fired two shots with a revolver. The first bullet struck the president in the left side and penetrated the heart, causing instant death. The second bullet killed an old man who was standing near the president. The assassin and accomplices then fled to avoid the shots fired at them by the president's friends. It is not known whether any of them were wounded. The body of the president was taken to the palace of Governor Merca. President Heureaux's death caused a panic.

It is said that one Juan Isidoro Jimenez, who took part in the attempted insurrection of June, 1898, was a candidate for the presidency. It is reported that General Maximo Gomez, formerly president of the Cuban insurrectionists, who is a native of San Domingo, also aspires to the presidency.

The father of Caceros, the assassin, was put to death by order of President Heureaux in 1884.

#### SLEW HIS FAMILY.

An Insane Man Kills Two of His Children and His Wife and Suicide.

Brazil, Ind., July 27.—Charles Wolfangel became violently insane at his home in Denmark, south of here, and seizing a hatchet chopped his two daughters, aged 8 and 12 years, and his wife to death while they were sleeping. He then, with a knife, cut his own throat. It is thought the eldest girl was awakened when her sister was killed, as evidences of a struggle were apparent.

One of Wolfangel's daughters is staying with Alex McCullough, near Asheville. Wolfangel called at McCullough's last Sunday and requested his daughter to accompany him home. The girl called on Mr. McCullough to shield her from her father's wrath, and he did so by driving Wolfangel from his house.

#### BENT ON MURDER.

Preston Carson Slain and Two of His Children Shot by a Farmer.

Chattanooga, July 27.—Mat Stanford, one of the most prominent white farmers in Washington county, shot and instantly killed Preston Carson near Washington college, and after killing Carson, who was on the public road, he went to his home and fired five shots into his house through the front door. The shots hit two of Carson's children, one 4 years old and the other 6. The youngest will likely die. Stanford fled, but was caught within a few miles from Smoky mountain and brought to Jonesboro and lodged in jail. The men had quarreled over a cornfield which Carson was working on shares for Stanford.

#### FIGHT WITH OUTLAWS.

One Desperado Was Killed, Two Captured and One Deputy Shot.

Independence, Kas., July 27.—A fierce fight is reported to have occurred in the Wichita mountains in the Indian Territory between Sheriff Morrison and two deputies and Taylor Kirk and four of his followers, who recently escaped from Washita county jail. The outlaws were all well armed and when the officers came on them they at once opened fire. One deputy sheriff was seriously wounded, while one outlaw was killed and two others, one of whom was Kirk, were wounded and captured. The others escaped.

#### Negroes Going to Weir City.

Independence, Kan., July 27.—The Missouri Pacific passenger train passed through here with two coaches of negroes from Alabama for Weir City, to take the place of the striking miners there. An effort was made to keep the negroes from entering Kansas which caused considerable delay and put the train behind time. The negroes are locked in the cars and guarded by armed men and trouble is expected at Weir City. The feeling there is very strong against the imported negroes, who have already caused trouble, and serious consequences may result.

#### Brant Murder Cleared.

St. Louis, July 27.—The mystery surrounding the murder of Charles A. Brant who was shot and killed in this city on July 25, 1898, has been cleared up, as John Connors, who was arrested in Cincinnati, has made a confession to the effect that he and two pals, Harry Morris and Edward Hellman, held up Brant and shot him for resisting. His two pals are in the Missouri penitentiary for burglary.

#### Jeffries Sails for Europe.

New York, July 27.—James J. Jeffries, the champion pugilist, has sailed for Europe. He is in prime condition for his contests with Charlie Mitchell and Jim Smith, which are to take place within a fortnight. Jeffries will return here about Sept. 15, when he will go into training at Ashbury Park for his fight with Sharkey.

#### A Heavy Judgment.

Dallas, July 27.—In the damage suit of Arthur Luff against the Houston and Texas Central Railway company, the jury returned a verdict awarding the plaintiff \$13,500. Mr. Luff was thrown from a passenger car at Howe, and received permanent injuries. He sued \$25,000.

#### Will Confer With Bryan.

Madison, Wis., July 27.—Democratic free silver leaders of Wisconsin will hold a conference with W. J. Bryan here next Monday for the purpose of making preliminary arrangements to have this state send a solid Bryan delegation to the national convention next year.

#### Frank Tannehill Dead.

New York, July 27.—Frank Tannehill, the veteran actor, is dying of Bright's disease in this city. While there is no hope of his recovery, skillful nursing may prolong his life for some days.

#### Kentucky Populists.

Frankfort, July 27.—The Populist state convention meets here tomorrow. More interest attaches to the convention on account of the revolt in the Democratic party against Senator Goebel, the nominee for governor.

#### Died From a Fall.

Athens, Ga., July 27.—Hon. Alex S. Erwin, Jr., a member of the legislature and a prominent young attorney, died here from injuries sustained from a fall from a porch in the rear of his office.

#### Brooklyn Strike Over.

New York, July 27.—The Brooklyn trolley strike now appears to be wholly a thing of the past and the companies' lines are in complete operation.

#### Colonel Pendleton Dead.

Richmond, July 27.—Colonel Edmund Pendleton, widely known throughout the south, died at Lexington, Va.

## MORE ABOUT OTIS.

A Texas Soldier Tells of His Experience in the Philippines.

## NOT COMPLIMENTARY

He Says Bitter Feeling Prevails Against the General Among the Troops. Volunteers Pushed to the Front in Every Battle.

San Antonio, July 27.—Emil Rhey, W. F. Stiegler and W. R. Burrier, sons of wealthy citizens of Fredericksburg, Tex., who joined the regulars for active service in the Philippines in preference to garrison duty with the volunteers in Cuba, reached here yesterday and were given an exceedingly warm welcome. They were discharged from the Eighteenth United States infantry at Manila.

The three men are of excellent character and have a good education.

They have made careful observations of affairs while in the campaign and are bitter against the military commander of the island.

"The half has not been told," said W. R. Burrier. "I know it is a fact that there were at one time as many as 3000 men in the hospitals at Manila and Iloilo."

"While I feel that I did not get all of my mail, I would not charge that our mail has been withheld from us or our mail home had been tampered with. It was common talk in camp, however, that our mail was being tampered with."

"I will know that as soon as I get home. Otis is the most thoroughly disliked man in Manila. The volunteers and regulars alike have no love for him. Lawton, Wheaton and MacArthur are the officers who are looked up to by the men on the island."

"The worst feature of the whole thing as it appeared to us was the brutal treatment of the volunteer regiments. We regulars were well treated and in no instance overworked, while the Nebraska and Kansas troops were made to bear the brunt of almost every action."

"The hospital figures will bear out this charge. Our regiment, for instance, has had only two men killed and 20 incapacitated for future service in all of the time that we have been on the islands, while in the Nebraska regiment there are about 20 able-bodied and fit men to a company."

"A remark that has filled the rank and file with disgust was the statement accredited to one of the surgeons that it was a whole lot cheaper to plant 50 soldiers in the Philippines, than to send one invalid home on a transport."

### Williams Has Escaped.

Thomasville, Ga., July 27.—The two companies of state militia having in charge John Williams, the negro rapist from Bainbridge, has arrived here. Williams will be taken to Savannah to save his being lynched.

### Negro Shot Down.

Jackson, Miss., July 27.—Stanley Hayes, the negro who attempted to criminally assault Alice Corley, the 14-year-old daughter of a white farmer, has been shot to death. A mob of farmers was quickly organized after the assault and Hayes met the mob face to face while walking along the road through a creek bottom near Greenfield. A volley of shots from pistols, rifles and shotguns was poured into his body and he dropped lifeless.

### Nitroglycerin in a Runaway.

Marion, Ind., July 27.—A wagon loaded with 60 gallons of nitroglycerin was driven into Van Buren, and the driver dismounted from the wagon to transact some business. When he stepped to the ground the horses became frightened and started to run down the principal street of the town. The sight of the glycerin wagon without a driver and being drawn by two frightened horses which were running away, caused a panic, and every citizen ran from the wagon, which was expected to explode every second. The horses broke loose from the wagon and left it standing in the street and no one was hurt.

### After Clyde Mattox.

Los Angeles, Cal., July 27.—Sheriff W. F. Pierce of Kirkwood, O. T., has arrived here to take Clyde Mattox back to stand trial for murder. Pierce says that the crime for which Mattox is to answer now is his fifth murder. He was pardoned once by President Cleveland and once by President McKinley. Mattox will be shackled and no chance given him to escape. Mattox is under 24 years old.

### Texas Farmer's Congress.

College Station, Tex., July 27.—The Farmers' congress as a whole held an experience meeting again Wednesday, at which 800 delegates were present, but the real work of the congress was accomplished at the different section divisions. Many papers were read and some fine theories advanced in favor of the diversification of crops.

### Convicts Refuse to Work.

Des Moines, July 27.—Five hundred convicts at the Anamosa penitentiary refuse to work and threaten to cause trouble because their weekly tobacco ration has been reduced from four to two ounces.

### Callaco Luna Dead.

Nacogdoches, Tex., July 27.—Callaco Luna, the Mexican who was so badly wounded at a fandango at his own house, three miles west from here, died at his wounds.

## MINERS MAKE A PROTEST.

They Claim a Clique Has Been Formed to Gobble Up Alaskan Claims.

Seattle, Wash., July 27.—Advises received on the steamer Elith Thompson from St. Michaels indicate that the miners of Cameron and Anvil City are wrought up to a high pitch on account of the action of United States Commissioner Shepard, backed by the United States soldiers.

A meeting of nearly 1000 men was dispersed on the night of July 10 by a squad of soldiers on the ground that they were not property owners. The meeting had been called regularly after five days' notice to protest against the policy that has been followed in locating claims. These miners declared that a clique or ring had been formed to gobble up all the good properties in the country. It is charged by miners who came in on the Thompson that machinery of the Federal government on the Yukon had been turned to the illegal practices.

They say that some of the Laplanders who were sent there under a five year contract by the government, have since arriving been naturalized and claims have been staked in their names. Even the reindeer which these Laplanders were hired to care for have been used for hauling stakes into the market to mark the claim boundaries for the members of the ring. The miners are signing a protest which will be forwarded to Washington. The protest alleges that the officials at St. Michael are conducting the affairs of the government to their own selfish ends.

While relations between the miners and officials are at a high tension there has been no desire shown to resort to force and no serious trouble is anticipated. The conditions are in such a confused shape that nothing is being done. Hundreds of contests have been filed, but that is as far as the men can go. The rich claims on Anvil creek and Snow Gulch have been filed on three or four times. Men are afraid to prospect, because they say if one should strike anything he would not be able to hold the claim.

### Good Templar Officers Elected.

Dallas, July 27.—The grand lodge of the independent order of Good Templars elected the following officers to serve for the ensuing year: Grand chief templar, D. H. Hancock of Farmersville; vice grand chief templar, Miss Sallie Stephens of Garland; grand councillor, J. P. Robertson of Kleburg; grand secretary, W. F. Barcus of Dallas; grand scribe junior temple, Mrs. H. W. Fairbanks of Dallas; grand treasurer, J. H. Bell of Wortham; grand chaplain, W. F. Ashmore of Copeville; grand marshal, B. V. Williams of Kleburg; grand guard, Paul Varley of Thurber; grand sentinel, C. A. Wilson of Princeton; grand messenger, Rev. R. E. Grabel of Big Springs.

### Cattle Fever From Mexico.

Austin, July 27.—The State Livestock Sanitary Commission has completed their investigation of the disease which recently made its appearance among cattle in Lavaca county, killing large numbers of them. It was found that the afflicted cattle had recently been imported from Mexico and that the disease was splenic fever, commonly known as Texas fever. The appearance of this fever among cattle so far south in what is known as the immune district establishes the fact that cattle from Mexico are subject to the disease, no matter in what part of Texas they are taken.

### Want to Be Annexed.

San Francisco, July 27.—The Call says the natives of the island of Kusale, in the Carolines, want to be annexed to the United States. The king, high chiefs and prominent men on the island, to the number of 72, have forwarded a petition to that effect to San Francisco, with the request that it be laid before the president. They say not a word about the Spaniards or Germans, but simply ask to be taken under the folds of the star and stripes. The petition was forwarded to the president. Now that Germany has purchased the group from Spain, she will at once take possession and then there may be war on Kusale similar to that in the Philippines. The petition of the Kusalers arrived too late.

### Off For Manila.

San Francisco, July 27.—Three transports have sailed for Manila. They are the Ohio and Newport, which left the docks shortly after midnight filled with recruits and regulars, and the Tacoma, which steamed out toward the head. The latter had been taken out into the stream during the night. Four companies of the Nineteenth infantry, comprising about 300 men were distributed on board of the Newport and Ohio, besides several hundred recruits. The Tacoma took 300 horses for the Fourth cavalry.

### Removed to the Crematory.

New York, July 27.—The body of Robert G. Ingersoll was removed from Dobb's Ferry to Fresh Pond, L. I., to the crematory this morning. The body was in a plain black coffin without ornaments. The top of the coffin was covered with roses. The funeral party included Mrs. Ingersoll, two daughters, Clinton B. Farrell, Walston H. Brown, Major Smith, Mrs. Smith and F. C. Penfield.

### Texas News Notes.

The cottonboll weevil has appeared in Wharton county.

Bessie Zachary, 4 years old, burned to death near Grapeland.

J. M. Wylder, a carpenter, fell with a scaffold near Gatesville, breaking his thigh.

Joe Hale was shot and killed near Heflinheimer. J. L. Matchett surrendered for the crime.

## UNPRECEDENTED.

Umbrella Returned to an American from Across the Sea.

New York Times: There is a prevailing impression abroad to the effect that the ordinary man will not recognize property rights so far as umbrellas are concerned. Prof. Corrigan of the St. Matthew School, Conshohocken, is ready with documentary evidence to show that at least one man in the world is honest in his views on umbrellas. Recently he received a bundle decorated with many foreign labels, accompanied by the following letter: "Florence, Italy, Oct. 2, 1898.—Dear Sir: While stopping at the Florence house I found this umbrella in the wardrobe of my room. On the handle I saw the initials 'B. F. C.', and after seeing the entry 'B. F. Corrigan, Conshohocken, Penn., U. S. A.' on the register, I came to the conclusion that you were the owner. I have kept the umbrella in my possession over a year, and one day accidentally broke the former handle, which you will see I have replaced. I hope it will prove just as serviceable as its predecessor. Hoping to hear of its arrival in good condition, I remain, yours truly, Alfred Campe. After Jan. 1, 1899, Genoa, Italy." Prof. Corrigan left the umbrella in question in Florence about two years ago. As it was well cared for by the finder and carefully packed before being shipped, the umbrella will now take a new lease of life with its rightful owner.

## IRVING'S NOBLE CHARITY.

His Gift in Charitable Causes Aggregate More Than \$150,000.

M. A. P. is authority for the statement that Sir Henry Irving is stated to have given away the enormous sum of £30,000 in charity during the last thirty years. It is probable that the figure is rather under the mark than otherwise. Can one wonder that there is one man on earth who is so beloved by his professional associates as is the Lyceum chief? Here is the story of one of the hundreds of instances in which Sir Henry has exercised a noble and disinterested generosity. One night, during a little supper given by Sir Henry to a few friends, a letter from a broken-down French actor was placed in his hand. The writer begged Sir Henry to appear at the performance to be given in Paris in his (the actor's) behalf. A look that we all know passed over the face of Sir Henry as he perused the letter. Slowly he read it again. "Poor fellow! Poor fellow!" he said. Then, turning to his secretary, after a pause, he hurriedly whispered: "Impossible to go to Paris. Send £50." The actor was unknown to Sir Henry; nevertheless, one can well believe the anecdote.

## Chinese Match Makers.

In China the matchmaker or "go-between" is a very important factor in domestic life. He it is who casts his watchful eye around that he may find suitable husbands for the daughters of his acquaintances, and then approaches the parents with due circumspection as well as a good deal of tact and diplomacy. To the family of the young man he narrates the good qualities, beauty and amiability of a certain young girl; then he makes a visit to her father and dwells upon the riches, learning and wisdom of a youth he knows. If he finds both sides willing to consider the question, he piles back and forth between them with all the sagacity of a man anxious to drive a good bargain. He knows that if he succeeds he will get a nice little fee from each family, and so he paints the many charms of the young couple in glowing terms. He is not always truthful, and sometimes the bridegroom, who is not allowed to see his future wife before the ceremony, finds that after the red cloth and veil are removed he is married to an ugly old crone. These instances of bad faith on the part of the "go-between" are fortunately rare, and usually he exhibits much discretion in his matings. A frequent sight to be met with in the narrow little Chinese streets is a bride, in her sedan chair of crimson and gold, hung with garlands of flowers, being borne to the home of the husband she has never seen. The attendants beat loudly upon drums and tom-toms, and fire off innumerable crackers, but even that din does not drown the shrill wailing of the unhappy bride.

## Tennyson's Humility.

The poet Tennyson was gifted with the grace of humility. His letters disclose his dissatisfaction with himself and his achievements. He pitched his ideals high, and he knew none more clearly, when he failed to grasp what he had reached after. An anecdote contributed by the duke of Argyll and quoted by Miss Cary in her volume, "Tennyson," exhibits the poet's humility. "The first words I heard him utter," says the duke, "remain indelibly impressed upon my memory. On being introduced to him at an evening party in the house of Lord John Russell, I said, perhaps with some emotion: 'I am so glad to know you!' Not in the tone of voice of a mere conventional reply, but in the accents of sincere humility, he answered: 'You won't find much in me after all.'"

## Gen. Miller's Future Home.

It is probable that Gen. Miller, who is now at Iloilo, will erect a summer residence in Stockbridge, Mass. Relatives of Gen. Miller in that village have received letters from him in which he announces his intention of taking up a residence in the village of his nativity.

## To License Drinkers.

A bill to compel drinkers of liquors to register and obtain a license is before the Michigan legislature.

## A \$40.00 Bicycle Given Away Daily.

The publishers of the New York Star, the handsomely illustrated Sunday newspaper, are giving a high grade bicycle each day for the largest list of words made by using the letters contained in "T-H-E N-E-W Y-O-R-K S-T-A-R" no more times in any one word than it is found in The New York Star. Webster's Dictionary to be considered as authority. Two good watches (first-class timekeepers) will be given daily for second and third best lists, and many other valuable rewards, including dinner sets, tea sets, china, sterling silverware, etc., in order of merit. This educational contest is being given to advertise and introduce this successful weekly into new homes, and all prizes will be awarded promptly without partiality. Twelve 2-cent stamps must be inclosed for thirteen weeks trial subscription with full particulars and list of over 300 valuable rewards. Contest opens and awards commence Monday, June 26th, and closes Monday-August 21st, 1899. Your list can reach us any day between these dates, and will receive the award to which it may be entitled for that day, and your name will be printed in the following issue of The New York Star. Only one list can be entered by the same person. Prizes are on exhibition at The Star's business offices. Persons securing bicycles may have choice of ladies', gentlemen's or juveniles' 1899 model, color or size desired. Call or address Dept. "E," The New York Star, 236 W. 39th Street, New York City.
